1. Final memory

- All the sections of the final memory that the coordinator organization must send to its national agency are reviewed. The information is completed taking into account all the partners contributions.

2. Material review got during the Erasmus+ Project: “From the literature to the cinema”.

- All the materials made during the two years by the different organizations and the students are reviewed and organized:
 - o Contest basis (if it's considered).
 - o Project dissemination
 - o Evaluation surveys filled by the students.
 - It's proposed to carry on with the teachers and families evaluations.
 - o Programme of activities for each of the students meetings.
 - o Pictures of the students meetings, organized taking into account the day and the activity.
 - o Students meeting reports, written by the teachers that have taken part.
 - o Work that has been made by the students, previous to the students meetings: posters, book covers and comics.
 - o Work that has been made by the students during the students meetings: videos.
 - o Personal experiences told by students and teachers: videos and written testimonies.

3. Good practices and success stories.

- Some examples of good practices and success stories are shown to the partner organizations. Some of the web pages are shown and some projects and web pages structures are discussed.

4. Project web page

- The final estructure of the web page for our Project is organized, in order to get coherence and impact.
