

THE GREAT ADVENTURE OF JOHN AND THE STONE MASK

how it was made

What shape did the mask have?

when I write the story I had thought to make a mask similar to this one, since it is a comic that I like a lot

The protagonist

indiana jones is one of my favorite movies, so when it comes to thinking about a story that had an archeologist as protagonist, it was the first person that came to mind

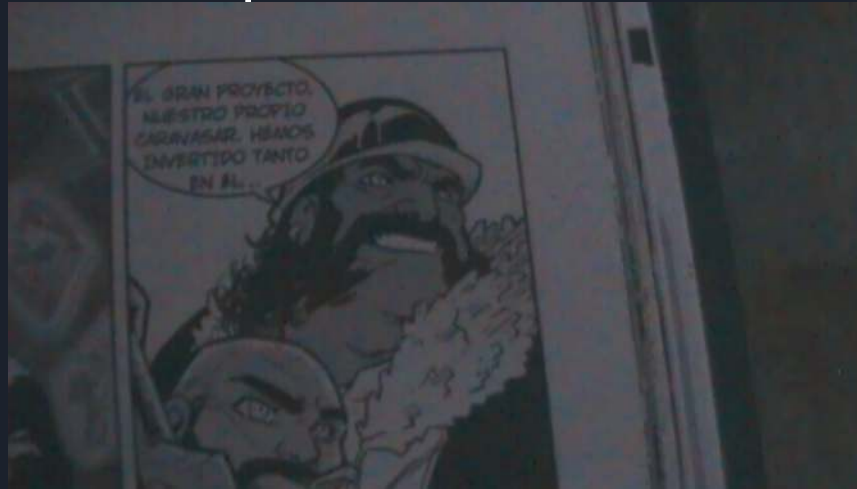

SERJILLA

When I thought about where the story might go, I thought of serjilla due to the great variety of relics I had, although unfortunately, Serjilla was bombarded by Rusia a short time ago.

Ibrahim

Very recently, in Spain, went on sale a comic called infinity outrage, in which there was a character called Iblis, which inspired me to create Ibrahim

BYE AND THANKS

And these were the ideas on which I relied to create this story, I hope you liked it, and until the next
